

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Cities

a sub-fund of Schroder International Selection Fund SICAV

Class A Accumulation USD (LU0224508324)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide income and capital growth in excess of the FTSE EPRA NAREIT Developed Index (Net TR, USD) after fees have been deducted over a three to five year period by investing in equities of real estate companies worldwide and which the investment manager deems to be sustainable investments.

Investment policy

The fund is actively managed and invests its assets in (i) sustainable investments, which are investments that contribute towards more environmentally resilient and innovative cities and infrastructure, and (ii) investments that the Investment Manager deems to be neutral under its sustainability criteria.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the fund's webpage

<https://www.schroders.com/en/lu/private-investor/gfc>

The fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the investment manager's rating criteria.

The investment manager may also engage with companies held by the fund to challenge identified areas of weakness on sustainability issues. More details on the investment manager's approach to sustainability are available in the prospectus and on the webpage

<https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures>

The fund invests at least two-thirds of its assets in equities of real estate

companies worldwide with a focus on companies that invest in cities that the investment manager believes will exhibit continued economic growth, supported by factors such as strong infrastructure and supportive planning regimes.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus). The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

Benchmark

The fund's performance should be assessed against its target benchmark, being to exceed the FTSE EPRA NAREIT Developed Index (Net TR, USD). The fund's investment universe is expected to overlap materially with the components of the target benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and reward profile

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Real Estate and Property Risk: Real estate investments are subject to a variety of risk conditions such as economic conditions, changes in laws (e.g. environmental and zoning) and other influences on the market.

Sustainability risk: The fund has the objective of sustainable investment. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the

investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio efficiently. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Emerging Markets & Frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and liquidity risk than developed markets.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Charges

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year	
Ongoing charges	1.82%

Charges taken from the fund under certain specific conditions	
Performance fee	None

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in US dollar after the ongoing charges and the portfolio transaction costs have been paid. Entry charges are excluded from calculations of past performance.

The fund was launched on 31/10/2005.

The shareclass was launched on 31/10/2005.

Performance achieved between 2010 and February 2020 was achieved in circumstances that no longer apply. The fund's investment policy was changed on 19 February 2020.

Please note that the fund's benchmarks were changed on 1 May 2021. The past performance in the above table is up to 1 May 2021 based on the fund's previous objective and benchmarks (Target benchmark: US Consumer Price index plus 3%. Comparator benchmark: FTSE EPRA NAREIT Developed index (Gross TR, USD)). The past performance since 1 May 2021 is based on the new objective and benchmarks (Target benchmark: FTSE EPRA NAREIT Developed index (Net TR, USD). No comparator benchmark).
