Global Emerging Markets Smaller Companies

a sub-fund of Schroder International Selection Fund SICAV

Class A Accumulation USD (LU1098400762)

This fund is managed by Schroder Investment Management (Europe) S.A., which is a member of the Schroders Group.

Objectives and investment policy

Objectives

The fund aims to provide capital growth in excess of the MSCI Emerging Markets Small Cap (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of small-sized companies in global emerging market countries.

Investment policy

The fund is actively managed and invests at least two-thirds of its assets in equities of small-sized companies of global emerging market countries, including companies outside these countries which have a substantial business exposure to global emerging markets. Small-sized companies are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of global emerging market companies.

The fund may invest directly in China B-Shares and China H Shares and may invest up to 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai/Shenzhen-Hong Kong Stock Connect and shares listed on the Science Technology and Innovation (STAR) Board and the ChiNext.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in the prospectus).

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently.

Benchmark

The fund's performance should be assessed against its target benchmark being to exceed the MSCI Emerging Markets Small Cap (Net TR) Index. The fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund. Please see appendix III of the fund's prospectus for further details.

Other Information

The fund maintains a higher overall sustainability score than the MSCI Emerging Markets Small Cap (Net TR) index, based on the investment manager's rating criteria.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability-Related Disclosure" on the fund's webpage

Dealing frequency

You may redeem your investment upon demand. This fund deals daily.

Distribution policy

This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Risk and reward profile

The risk and reward indicator

The risk category was calculated using historical performance data and may not be a reliable indicator of the fund's future risk profile.

The fund's risk category is not guaranteed to remain fixed and may change over time.

A fund in the lowest category does not mean a risk-free investment.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Risk factors

Sustainability risk: The fund has environmental and/or social characteristics. This means it may have limited exposure to some companies, industries or sectors and may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the investment manager. The fund may invest in companies that do not reflect the beliefs and values of any particular investor.

Currency risk: The fund may lose value as a result of movements in foreign exchange rates, otherwise known as currency rates.

Derivatives risk: Derivatives, which are financial instruments deriving their value from an underlying asset, may be used to manage the portfolio

efficiently. The fund may also materially invest in derivatives including using short selling and leverage techniques with the aim of making a return. A derivative may not perform as expected, may create losses greater than the cost of the derivative and may result in losses to the fund.

Emerging Markets & Frontier risk: Emerging markets, and especially frontier markets, generally carry greater political, legal, counterparty, operational and liquidity risk than developed markets.

Stock Connect risk: The fund may be investing in China "A" shares via the Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect which may involve clearing and settlement, regulatory, operational and counterparty risks.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

Smaller companies risk: Smaller companies generally carry greater liquidity risk than larger companies, meaning they are harder to buy and sell, and they may also fluctuate in value to a greater extent.

Operational risk: Operational processes, including those related to the safekeeping of assets, may fail. This may result in losses to the fund.

Performance risk: Investment objectives express an intended result but there is no guarantee that such a result will be achieved. Depending on market conditions and the macro economic environment, investment objectives may become more difficult to achieve.

Charges

One-off charges taken before or after you invest

Entry charge 5.00%

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges 1.88%

Charges taken from the fund under certain specific conditions

Performance fee

None

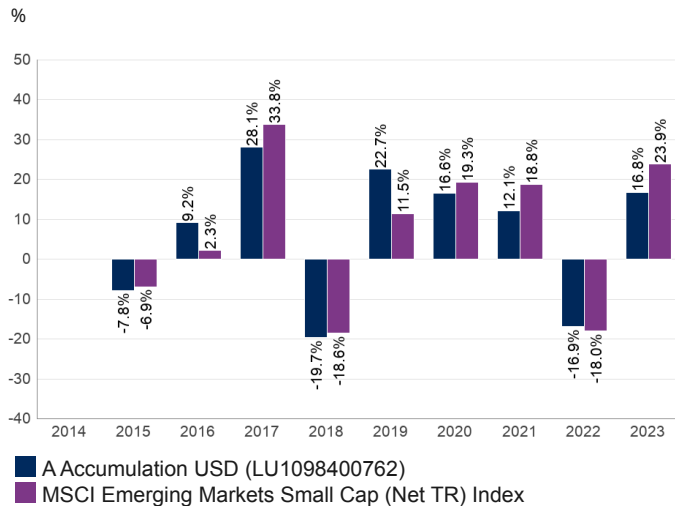

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry and exit charges shown are maximum figures and in some cases you might pay less. You can find out the actual entry and exit charges from your financial advisor.

The ongoing charges figure is based on the last year's expenses for the year ending December 2023 and may vary from year to year.

You can find more information about the charges in Section 3 of the fund's prospectus.

Past performance

Past performance is not a guide to future performance and may not be repeated. The value of investments may go down as well as up and you may not get back the amount you originally invested.

The chart shows performance in US dollar after the ongoing charges and the portfolio transaction costs have been paid. Entry charges are excluded from calculations of past performance.

The fund was launched on 29/01/2014.

The shareclass was launched on 27/08/2014.
