What is this product?

Type

This is a securities fund (UCITS) under regulation of Swedish law.

Term

The fund does not have a maturity date. The fund management company has the right to close the fund and redeem the fund units as described in the information included in the fund prospectus.

Objectives

The fund is actively managed, which means that the portfolio manager takes active, independent investment decisions. The long term objective of the fund is to exceed the returns of the underlying market, defined as the benchmark index.

The fund is a global equity fund with the objective of investing in companies that are expected to be positively impacted by the digitalization investment theme. The fund's objective will be attained through investments within sectors such as information technology and communication services. The digitalization theme can extend across several regions and sectors.

International norms and guidelines for the environment, social responsibility and corporate governance are taken into consideration within the scope of the fund's investment focus. The fund applies an exclusion strategy for companies operating within the fossil fuels, war materials, tobacco, cannabis, alcohol, commercial gambling and pornography segments/sectors. However, the fund may invest in companies or funds that invest in companies involved in power generation, distribution or services related to fossil fuels in those cases where the company is deemed to be transitioning its operations to more renewable energy.

The fund may invest in derivative instruments as part of its investment focus. The fund may invest a maximum of 10% of the fund capital in fund units.

We compare the fund's performance with Solactive ISS ESG Screened Technology Index Capped. As the fund is actively managed the performance will over time deviate from this index.

The shareclass does not distribute dividends. All income is reinvested in the fund.

Normally, you may purchase and sell fund units every banking day.

Additional information about the sustainability work, the share class designation in parentheses and the management in relation to the funds benchmark index and risk level, may be found in the prospectus.

Intended retail investor

This fund may be suitable for investors who intend to hold their investments for at least 5 years and who understand that the money invested in the fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned. Investing in the fund does not require any specific prior knowledge or experience of UCITS or financial markets.

Depository: J. P. Morgan SE - Stockholm Bankfilial.

What are the risks and what could I get in return?

Risk indicator

 The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 5 out of 7, which is a medium-high risk class. This means the fund has medium-high risk of ups and downs in the share value. The indicator primarily reflects increases and decreases in the assets the fund is invested in.

This product does not provide any protection from future market performance. You could therefore lose some or all of your investment.

Performance scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. The unfavorable, moderate and favorable scenarios show the worst, average and best performance for the product over the last 10 years. Given that the share class does not have 10 years of historical performance, the relevant benchmark index or, alternatively, historical performance from another share class in the fund, is used for the calculation of the scenarios.

Recommended holding period: 5 years			
Investment amount 100,000 kr			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose all of your investment.		
Stress Scenario	What you might get back after costs	16,900 kr	16,600 kr
	Average return each year	-83.10 %	-30.17 %
Unfavourable Scenario	What you might get back after costs	70,800 kr	70,800 kr
	Average return each year	-29.20 %	-6.67 %
Moderate Scenario	What you might get back after costs	123,400 kr	259,000 kr
	Average return each year	23.40 %	20.97 %
Favourable Scenario	What you might get back after costs	156,600 kr	368,900 kr
	Average return each year	56.60 %	29.83 %

The unfavorable scenario occurred during the period 12/2021 - 12/2022, the moderate scenario occurred 07/2013 - 07/2018 and the favorable scenario occurred 11/2016 - 11/2021. The stress scenario shows what you might get back in extreme market circumstances. The markets could develop very differently in the future.

What happens if Handelsbanken Fonder AB is unable to pay out?

By law, the fund's assets may not be held in custody by the fund management company. Instead, each fund must have a specific depository that handles the safekeeping of the fund's assets. In the event of the bankruptcy of the fund management company, the management of the fund is taken over by the depository. There is no compensation or guarantee scheme for investors in the fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If the fund is included as part of another product, e.g., unit-linked insurance, additional costs may arise for that product.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 100,000 kr is invested

	If you exit after 1 year	If you exit after 5 years
Total Costs	1,529 kr	20,413 kr
Annual Cost Impact (*)	1.5 %	1.8 % each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 22.82 % before costs and 20.97 % after costs.

Composition of costs (amount in NOK is based on an investment of NOK 100,000).

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The fund does not have a minimum holding period requirement but since investments are made in equities, it is suitable for a long-term investment horizon. You should be prepared to save in the fund for at least 5 years. Normally, you may sell your fund units every banking day without incurring any extra fee.

How can I complain?

If you wish to make a complaint about the fund, you can contact the person who advised you or sold you the product. You can also contact the fund management company directly at: klagomal@handelsbanken.se or write to Handelsbanken, Complaints Officer, 106 70 Stockholm, Sweden.
