

Templeton Global Smaller Companies Fund

Class A (acc) USD • ISIN LU0128526141 • A sub-fund of Franklin Templeton Investment Funds

The management company is Franklin Templeton International Services S.à r.l.

Objectives and Investment Policy

Templeton Global Smaller Companies Fund (the “Fund”) aims to increase the value of its investments over the medium to long term.

The Fund pursues an actively managed investment strategy and invests mainly in:

- equity securities issued by smaller companies (i.e. with a market capitalisation within the range of the market capitalisations of companies included in the MSCI All Country World Small Cap Index), located in any country, including emerging markets

The Fund can invest to a lesser extent in:

- equity securities issued by companies of any size located in any country
- derivatives for hedging and efficient portfolio management

The investment team uses in-depth analysis to select individual equity securities that it believes are undervalued and will provide the best opportunities for increased value over the long term.

The benchmark of the Fund is the MSCI AC World Small Cap Index-NR. The Fund uses a benchmark index to define small caps as the range of

acceptable market caps at initial purchase and also as a reference for investors to compare against the Funds' performance. The Fund is not obliged to hold any of the benchmark constituents and may indeed invest up to 100% of its net assets outside the benchmark.

You may request the sale of your shares on any Dealing Day (as defined in the current prospectus of the Fund).

The income received from the Fund's investments is accumulated with the result of increasing the value of the shares.

For further information on the Objectives and Investment Policy of the Fund, please refer to the section “Fund Information, Objectives and Investment Policies” of the current prospectus of Franklin Templeton Investment Funds.

Terms to Understand

Emerging markets: Countries whose economy, stock market, political situation and regulatory framework are not fully developed.

Equity securities: Securities that represent an ownership stake in a company.

Risk and Reward Profile

What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

Why is the Fund in this specific category?

The Fund invests mainly in equity securities of smaller companies around the world. Such securities have historically been subject to significant price movements that may occur suddenly due to market or company-specific factors. As a result, the performance of the Fund can fluctuate significantly

over relatively short time periods.

Risks materially relevant not adequately captured by the indicator:

Derivative Instruments risk: the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.

Emerging markets risk: the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

Foreign Currency risk: the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

Liquidity risk: the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets.

For a full discussion of all the risks applicable to this Fund, please refer to the “Risk Considerations” section of the current prospectus of Franklin Templeton Investment Funds.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.75%
Exit charge	Not applicable

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over a year

Ongoing charges	1.88%
------------------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	Not applicable
------------------------	----------------

The entry charges shown are maximum amounts; you may pay less in some cases. For more information, please see your financial adviser.

The ongoing charges are based on the expenses for the year ending 31 December 2023. This figure may vary from year to year.

For detailed information about charges, please refer to the sections "Share Classes" and/or "Performance Fees" (as applicable) as well as Appendix E of the current prospectus of Franklin Templeton Investment Funds.

Past Performance

(Benchmark performance is provided for information and indicative purposes only.)

A: The performance was achieved under circumstances that no longer apply.

- Past performance is not a guide to future performance.
- The past performance shown here includes all the ongoing charges but not the entry charge.
- Past performance is calculated in the currency of the present share class.
- The Fund was launched in 1991 and the present share class on 14/05/2001.
- Product performance is not tracking the index.
