

IMPORTANT INFORMATION: This is marketing communication. The report should not be perceived as a recommendation to buy or sell fund units. Prior to subscription, we encourage you to read the fund's prospectus and key investor information document which are available at www.skagenfunds.com, from our local representatives and from our distributors.

Performance Commentary

The fund generated a solid return in February and was well ahead of global equity markets, primarily driven by several positive stock-specific developments. A strong contributor to fund performance was the German joining technology producer Norma. The company is going through a transition phase with improving momentum. Norma trades at a significant discount to its normalised earnings potential while recent industrial interest has sparked further interest in the shares. Our Spanish pulp and renewable energy producer Ence rallied during the month, driven by numbers indicating strong operational performance and cash flow generation. Ence was also boosted by a legal ruling in their favour regarding one of their concessions. One of our largest positions, methanol producer Methanex, delivered a solid set of results while the company is moving towards the launch of additional capacity, which will lead to substantial mid-term free cash flow for shareholders. On the negative side, Korean bank KB Financial, gave back some of its recent strong performance. However, we believe KB Financial offers significant value in the mid-term given its low valuation multiples versus its generated economic return, improving capital allocation and significant discount to its global peer group average.

SKAGEN Focus is a high conviction equity fund that seeks to generate long-term capital growth by investing in a portfolio of global companies with the majority of exposure invested in small and mid-cap companies. Subscriptions are made in fund units and not directly in stocks or other securities. The fund has risk profile 6. The benchmark reflects the fund's investment mandate. Since the fund is actively managed, the portfolio will deviate from the composition of the benchmark.

Historical performance (net of fees)

Period	SKAGEN Focus A	Benchmark index
Last month	1.8%	-1.2%
Year to date	10.5%	3.4%
Last 12 months	3.5%	1.7%

*10.00% performance fee calculated daily and charged annually if the fund's value development is better than the benchmark index. The total management fee charged represents a maximum of 3.20% p.a. and a minimum of 0.80% p.a. The performance fee may be charged even if the fund's units have depreciated in value if the value development is better than the benchmark index.

Performance last ten years

Historical returns are no guarantee for future returns. Future returns will depend, inter alia, on market developments, the fund manager's skill, the fund's risk profile and management fees. The return may become negative as a result of negative price developments. There is a risk associated with investing in the fund due to market movements, currency developments, interest rate levels, economic, sector and company-specific conditions.
